Dear Gentlemen,

In alignment with our commitment to continuous improvement and in accordance with the Company Quality Management System requirements, the Quality Department is pleased to announce the launch of the Annual Quality Internal Audit Program for 2026, as approved by Senior Management.

The attached Quality Internal Audit Program has been developed in compliance with ISO 9001:2015 requirements and in alignment with ISO 19011:2018 Guidelines for auditing management systems. The defined scope and audit criteria comprehensively cover all key functions, business units, and both ongoing and upcoming projects.

Prior to each scheduled audit, a detailed Audit Plan and agenda will be formally communicated to the respective departments and project teams. All functions are expected to maintain updated records and ensure the availability of objective evidence for review and verification during the audit activities.

Please note that the audit team will coordinate with your department to nominate a focal point who will act as the primary auditee during the audit. Full cooperation and compliance with this Internal Audit Program are mandatory for all concerned personnel.

Your continued support and cooperation are essential to the effective implementation of this program and the ongoing enhancement of our Quality Management System.

Thank you & Best Regards,

Owies Alrababah
Quality Director
